

# Publication.

It is hereby brought to public notice that the Governor of the Virgin Islands of the United States was today officially advised by radio that an Act of Congress signed by the President 12 July, 1921, and effective 1 July, 1921, contained the two following provisos:

"Provided that no person owing allegiance to any country other than the United State of America shall be eligible to hold office as a member of the Colonial Councils of the Virgin Islands of the United States nor to hold any public office under the Government of said islands:

Provided further that the income tax laws now in force in the United States of America and those which may hereafter be enacted shall be likewise in force in the Virgin Islands of the United States except that the proceeds of such taxes shall be paid into the treasuries of said islands."

Government of the Virgin Islands of the United States, St. Thomas, 15 July, 1921.

C. C. TIMMONS.  
Government Secretary.

Eastman's Kodaks, Films etc.

CAMEL CIGARETTES,

and from Porto Rico

Assortment of Cigars.

Hans Boje & Jean Petersen.

## Make This Test

See how teeth glisten then

This ten-day test costs nothing. To millions it has brought a new era in teeth cleaning. This is to urge that you try this method. Then let your own teeth show you what it means to you and yours.

### To fight the film

The object is to fight the film which causes most tooth troubles. Film is that viscous coat you feel. It clings to teeth, enters crevices and stays. The old methods of brushing do not end it. So, despite all care, tooth troubles have been constantly increasing.

It is the film-coat that discolors, not the teeth. And nearly all teeth brushed in old ways are coated more or less.

Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. And that disease has become alarming in extent.

**Pepsodent**  
REG. U.S. PAT. OFF.

The New-Day Dentifrice

A scientific film combatant, combined with two other modern requisites. Now advised for daily use by leading dentists everywhere. Supplied by druggists in large tubes.

# Free

A 10-Day Tube of  
Pepsodent to anyone  
who asks.

It will show you the  
way to safer, whiter  
teeth.

See below.

### A daily combatant

Dental science has now found ways to daily combat this film. For five years the methods have been carefully watched and proved. No leading dentists everywhere advise them.

These methods are embodied in a dentifrice called Pepsodent. Millions now know it and employ it. Wherever you look the results are seen in glistening teeth today.

### Acts in five ways

One ingredient in Pepsodent is pepsin. Another multiplies the starch digestant in the saliva to digest starch deposits that cling. The alkalinity of the saliva is multiplied also. That to neutralize the acids which cause tooth decay.

Two factors directly attack the film. One of them keeps teeth so highly polished that film cannot easily adhere.

With every application, Pepsodent combats the teeth's great enemies in new and efficient ways. To millions it is bringing cleaner, safer, whiter teeth.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

This test will be a revelation. Make it now. Cut out the coupon so you won't forget.
