Re: Groundwater Monitoring, Tutu Wells Site Remedial Investigation.

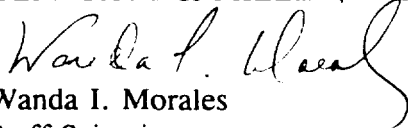

Dear Ms. Simmonds:

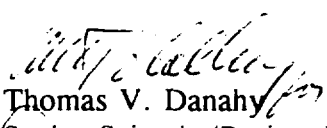

Geraghty & Miller, Inc. has scheduled the removal of the submersible pump and sampling activities in supply well VIHA I for the week of July 18, 1994. The submersible pump and piping will be removed on July 18, 1994. Purging and sampling of the well will be performed on July 20, 1994.

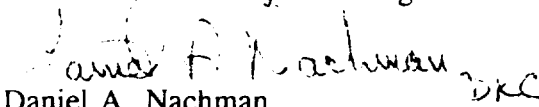

Both activities will be performed by Poly Caribe personnel under Geraghty & Miller supervision. The submersible pump will be stored at VIHA facilities in an area as indicated by VIHA maintenance personnel. If you have any questions, please contact us at (809) 725-2304.

Sincerely,

GERAGHTY & MILLER, INC.
