Official Publication

IT is with much gratification that I inform the people of the Virgin Islands that The Honorable, The Secretary of the Navy, is sending an officer of the Civil Engineer Corps of high rank, to the Virgin Islands for the purpose of investigating and reporting upon the means of providing a water supply for the towns of St. Thomas, Christiansted and Frederiksted. It is expected that this officer will reach the Virgin Islands the latter part of the present month.

The Honorable, The Secretary of the Navy, has also informed me that the Department of the Interior has agreed to send a Reclamation

Engineer to the Virgin Islands to investigate and report upon the possibility of water conservation for agricultural purposes, and that this engineer will probably arrive in the Virgin Islands the latter part of February.

We have now the assurance that the problem of water for the Virgin Islands is about to receive the expert investigation necessary to eventual solution and in view of this, I earnestly urge that the people adopt an optimistic view as to what the future may hold for us.
