NEURASTHENIA NERVE STARVATION

A Disease of the Down Hearted—Practical advice on what to do.

Many a man is broken down and discouraged without having any actual disease in his organs and tissues,—he has lost his grip, feels weak and nervous and everything looks dark. He is suffering from the great modern disease—Neurasthenia or nerve starvation, due to over-work, worry, continual anxiety and nervous strain. The longer this continues the more certainly will it exhaust the power of his organs, his nerves or his mind.

Such a man should live on the simple foods, eat plenty of cooked fruit and green vegetables, sleep nine hours at night if he can, an hour in the afternoon and feed his starving nerves and weak, thin blood, with a good nerve and blood food, like Nuxated Iron. Nuxated Iron contains a product brought to the attention of the French Academy of Medicine by the celebrated Doctor Robin, which represents the principal chemical constituent of active living nerve force; it also contains genuine organic iron like the iron in your blood and like the iron in spinach, lentils and apples.

Nuxated Iron may therefore be said to be a real nerve and blood food since it supplies the principal ingredients demanded by your nerves and blood to give you strength, energy, force and endurance. It often increases the bodily and mental vigor of weak, worn-out, downhearted and nervous folks in two weeks time. Your money will be refunded by the manufacturers if it does not produce perfectly satisfactory results. Sold by all druggists.
