ST. CROIX STATION.

London, Nov. 14th.—In the House of Commons today Mr. Macveagh, nationalist, was suspended because he told Mr. Macpherson, Chief Secretary for Ireland not to be "impertinent" when the Secretary replied to a question with a remark which Mr. Macveagh considered as insinuating that he was a Sinn Fein sympathizer. The member refused to withdraw the expression, declaring that before many months had passed, the House would be of the same opinion that he held regarding Mr. Macpherson.

London, November 14th.—Mr. Lloyd George has offered the Railwaymen's Union membership in the Committee management of the roads with the railway directors and government officials, according to a statement by Mr. Thomas, General Secretary of the National Union of Railwaymen. Mr. Thomas announces that the Government also had made a definite offer of new machinery to deal with wages of railwaymen and settlement of disputes. Both offers were made at a conference of the Premier with a delegation from the National Union of Railwaymen on Thursday. The plan will be submitted to the Executive of the Union today for decision.

London, Nov. 14th.—The Bolshevik have been overthrown in Brest-Litovsk, a despatch from Moscow today admitted. After fighting the insurgents there for 8 days the Bolshevik withdrew. The communique asserts that the Bolshevik army in Siberia has captured 90,000 tons of grain and that 90,000 tons of oil were burned in a fire at Grozny in the northern Caucasus.

Helsingfors, Nov. 14th.—The Baltic

What Makes Men of Blood and Iron? Men of Stamina, Force and Success—Men Who Lead The Way

Physician Explains Secret of Strong Nerves, Keen Active Brains and Great Physical Energy—says

Nuxated Iron Helps Put Strength and Energy Into The Veins of Men

It is the men of blood and iron—on a par with the war-hardened fellows returning from camp and field—who will forge ahead in the business and political life of the country today. Living in the open, eating coarse foods and leading regular lives have made blood rich in iron for these strong, healthy, vigorous specimens of manhood. But no such opportunity for building up their health is open to thousands of men and women in civil life whose wearing tasks and iron-impooverished food sap their energy and make them weak, anæmic and run-down and often cause their blood to literally starve for want of iron.

In commenting upon the probability of building up a stronger race of people by increasing the supply of iron in their blood, Dr. George H. Baker, formerly Physician and Surgeon, Monmouth Memorial Hospital of New Jersey, says: "Iron is absolutely necessary to change food into living tissue, muscle and brain. Without iron there can be no strong, red-blooded men or healthy rosy-cheeked women, and unless this strengthening iron is obtained from the foods we eat, it must be supplied in some form that is easily absorbed and assimilated. Refined foods and modern methods of cooking have robbed us of much of the iron which Nature intended we should receive. For supplying this deficiency and increasing the red blood corpuscles, I know of nothing more effective than organic iron—Nuxated Iron. From a careful examination of the formula and my own tests of Nuxated Iron, I feel convinced that it is a preparation which any physician can take himself or prescribe for his patients with the utmost confidence of obtaining highly beneficial and satisfactory

Will War Help Make New Race Of Super-men With Strength and Endurance Like Athletes of Old?

results. The fact that Nuxated Iron is today being used by over three million people annually as a tonic, strength and blood-builder, is in itself an evidence of tremendous public confidence and I am convinced that if others would take Nuxated Iron when they feel weak and run-down, it would help make a nation of stronger, healthier men and women."

If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. Numbers of nervous, run-down people who were ailing all the while have most astonishingly increased their strength and endurance simply by taking iron in the proper form. And this after they had, in some cases, been doctoring for months without obtaining any benefit.

Manufacturers' Note: Nuxated Iron which is prescribed and recommended above is not a secret remedy but one which is well known to druggists everywhere. Unlike the older inorganic iron products it is easily assimilated and does not injure the teeth, make them black nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed by all good druggists.

States Conference at Dorpat has been advised that Finland has decided to aid General Yudenitch with 30 000 volunteers in a new attempt to take Petrograd within the next few days.

Washington, Nov. 14th.—President Wilson in a cable to Queen Alexandra of Great Britain said he was happy to say that his health was steadily improving. His message was in reply to one from the Queen thanking him for receiving her

grandson, the Prince of Wales, and expressing the hope that his rest would give him "fresh strength and health for the future."

Albany, New York, Nov. 14th.—Sixteen officers of the battle cruiser "Renown", which arrived in New York, and on which the Prince of Wales will make his headquarters during his visit to New
