President.

What Makes Men of Blood and Iron? Men of Stamina, Force and Success—Men Who Lead The Way

Physician Explains Secret of Strong Nerves, Keen Active Brains and Great Physical Energy—says

Nuxated Iron Helps Put Strength and Energy Into The Veins of Men

It is the men of blood and iron—on a par with the war-hardened fellows returning from camp and field—who will forge ahead in the business and political life of the country today. Living in the open, eating coarse foods and leading regular lives have made blood rich in iron for these strong, healthy, vigorous specimens of manhood. But no such opportunity for building up their health is open to thousands of men and women in civil life whose wearing tasks and iron-impooverished food sap their energy and make them weak, anæmic and run-down and often cause their blood to literally starve for want of iron.

In commenting upon the probability of building up a stronger race of people by increasing the supply of iron in their blood, Dr. George H. Baker, formerly Physician and Surgeon, Monmouth Memorial Hospital of New Jersey, says: "Iron is absolutely necessary to change food into living tissue, muscle and brain. Without iron there can be no strong, red-blooded men or healthy rosy-cheeked women, and unless this strengthening iron is obtained from the foods we eat, it must be supplied in some form that is easily absorbed and assimilated. Refined foods and modern methods of cooking have robbed us of much of the iron which Nature intended we should receive. For supplying this deficiency and increasing the red blood corpuscles, I know of nothing more effective than organic iron—Nuxated Iron. From a careful examination of the formula and my own tests of Nuxated Iron, I feel convinced that it is a preparation which any physician can take himself or prescribe for his patients with the utmost confidence of obtaining highly beneficial and satisfactory

Will War Help Make New Race Of Super-men With Strength and Endurance Like Athletes of Old?

results. The fact that Nuxated Iron is today being used by over three million people annually as a tonic, strength and blood-builder, is in itself an evidence of tremendous public confidence and I am convinced that if others would take Nuxated Iron when they feel weak and run-down, it would help make a nation of stronger, healthier men and women."

If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. Numbers of nervous, run-down people who were ailing all the while have most astonishingly increased their strength and endurance simply by taking iron in the proper form. And this after they had, in some cases, been doctoring for months without obtaining any benefit.

Nuxated Iron is a pure, organic iron which is prescribed and recommended by all the leading medical authorities. It is well known to druggists everywhere. Unlike the other inorganic iron products it is easily assimilated and does not irritate the stomach, make them black nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed by all good druggists.

**DISTRIBUTORS: APOTHECARY HALL,
ST. THOMAS.**

Chicago now boasts the largest bascule bridge in the world. This recently completed structure has a 260-foot span in a single leaf.—*The Youth's Instructor*, March 9th.

Legislatures in twenty-six States have now ratified the Susan B. Anthony amendment to the Constitution, which gives to the women of the country

suffrage rights equal to those of men.—*Ibid.*

The Welland Canal, connecting the Great Lakes with the Atlantic seaboard, is being enlarged. Heretofore, in order for ships of any size to pass through the locks, they had to be cut in two, and then reassembled at the other end, a costly and very inconvenient plan.—*Ibid.*
