When teeth are dingy

When teeth glisten

Add Pearly Teeth

To your attractions—Combat the film

Have you noticed how many smiling women now
show pretty teeth? And how much they add to beauty?Millions now combat the film—that dingy film on
teeth. And they gain results which, when you know
them, you will never go without.

Film is unsightly

You can feel on your teeth a viscous film. It is
ever-present, ever-forming. Mere brushing does not
end it. So much remains to form the basis of dingy
coats.Film is what discolors, not the teeth. Film is the
basis of tartar. It holds food substance which fer-
ments and forms acids. It holds the acids in contact
with the teeth to cause decay.Germs breed by millions in it. They, with tartar,
are the chief cause of pyorrhea. Thus most tooth
troubles and most dingy teeth are now traced to film.

Now millions do this

To save the teeth it was essential to combat that
film. So dental science, after long research, found
two ways to do it. Leading dentists the world over
now advise their daily use.

A modern tooth paste has been created—made to

comply with the new-day requirements. And these
film combatants are embodied in it.This tooth paste is called Pepsodent. Millions of
people who have seen its results now apply it twice
a day. And they enjoy the teeth you see—whiter,
cleaner, safer.

Mouths kept alkaline

Another result is to multiply the alkalinity of the
saliva. And that neutralizes acids which cause tooth
decay.Each use also multiplies the starch digestant in the
saliva. That to digest the starch deposits that cling.
If left to ferment they form acids.Thus every application gives manifold power to
Nature's tooth-protecting forces in the mouth.The results will surprise and convince you. You
will see that teeth-cleaning can be made vastly more
effective.Send the coupon for a 10-Day Tube. Note how
clean the teeth feel after using. Mark the absence of
the viscous film. See how teeth whiten as the film-
coats disappear. Then you will know why this new
method is everywhere advised. Cut out the coupon
now.
