Goodyear Tires.

It is the Goodyear policy to serve the consumer.

To do this they are manufacturing three distinct types of tires, so that every car owner can secure the Goodyear quality tire best suited to his needs.

Goodyear Cords are the best tires that can be built. Their long wear and resistance to trouble more than compensate for their slightly added cost.

They have high air capacity, which, together with the cord construction, insures greater riding comfort and protects from excessive jars and jolts.

The carcass of Goodyear Fabric Tires is built up of stout plies of Goodyear cotton fabric, impregnated and covered with Goodyear Rubber.

They are made in all sizes with plain or All-Weather thread design.

It is the conviction of most tire users that Goodyear Fabric Tires will give you the lowest cost service of any fabric tire made.
