

It's Nerve Force from Nuxated Iron

that helps make **STRONG, MAGNETIC, FORCEFUL MEN**, who make their over-mastering presence felt the moment they enter a room.

NUXATED IRON

contains the principal chemical constituent of active living nerve force in a form which most nearly resembles that in the brain and nerve cells of man. It also contains organic iron like the iron in your blood and like the iron in spinach, lentils and apples. Organic iron enriches the blood and plenty of rich red blood means more nerve force, so that Nuxated Iron not only feeds what might be termed artificial nerve force to the nerve cells, but it stimulates the blood to manufacture a greatly increased supply of new nerve force. If you are weak, nervous or run-down, get a bottle of Nuxated Iron today, and if within two weeks' time you do not feel that it has increased your nerve force and made you feel better and stronger in every way, your money will be refunded. For sale at all good drug stores.

BARGAIN Summer Dress

This exquisite, fashionable dress is made of a sheer quality voile with all-over pattern. The dress will wash perfectly. The round neck is adorned with three rows of white organdy ruching. Short sleeves and two loose panels on skirt are edged with the same white ruching. The broad white organdy sash ties gracefully in the back. Circular skirt is made full around bottom and the two loose panels make the dress one of the most desired styles. **This dress would ordinarily sell for about \$4.**

Colors: Navy Blue or Brown with white and tan small figures as pictured. Sizes to fit Misses—14 to 18; Ladies—32 to 46.

A Delight

That millions have discovered
Whiter, cleaner, safer teeth

Look about you—note the prettier teeth you see. Note how people smile to show them.

Think what added beauty those pearly teeth have brought.

Millions now clean teeth in a new way. You will use it when you know. This is to offer a ten-day test so you may find it out.

That dingy film

Teeth are coated with a dingy film—that viscous coat you feel. It clings to teeth, enters crevices and stays.

Food stains, etc., discolor it, then it forms cloudy coats. Tartar is based on film. That's why teeth lose luster.

Film also holds food substance which ferments and forms acid.

It holds the acid in contact with the teeth to cause decay. That's why tooth troubles were almost universal.

Germs breed by millions in film. They, with tartar, are the chief cause of pyorrhea, now so alarmingly common.

Film coats left

Old brushing methods left much film intact. No ordinary tooth paste effectively combats it.

So dental science sought for film combatants, and eventually found two. One acts to curdle film, one to remove it, and without any harmful scouring.

Ally authorities proved these methods effective. Then a new-type tooth paste was created, based

Protect the Enamel

Pepsodent disintegrates the film, then removes it with an agent far softer than enamel. Never use a film combatant which contains harsh grit.

on modern research. Those two great film destroyers were embodied in it.

That tooth paste is called Pepsodent. Now it has come into world-wide use, largely by dental advice.

Other effects

Pepsodent also multiplies the alkalinity of the saliva. That is there to neutralize mouth acids, the cause of tooth decay.

It multiplies the starch digestant in the saliva. That is there to digest starch deposits which may otherwise ferment and form acids.

Those are vital tooth protectors. Soapy tooth pastes weaken them. That's one reason why they failed. Pepsodent multiplies their power.

Watch the change

The way to know is to make this test. Judge by what you see and feel. It will be a revelation.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

Then you will realize how important this is to the people in your home. Cut out coupon now.
