RE: Clarification/Confirmation of Submittal Date
Draft RI and Remedial Alternatives Memo
Tutu Well Site, U.S.V.I.

In the cover letter accompanying the Endangerment Assessment, (attached), it is indicated that the draft RI and Remedial Alternatives Memo are due to EPA by September 30.

During our August 16 conference call with you, CDM, VIDPNR, EPA ORC and G&M, it was agreed that these draft reports would be submitted by October 13, which is 30 business days (less holidays) from August 30. This memo confirms our telephone call of today that the appropriate due date remains as October 13.
