

1-X-6

A Highly Satisfactory Belt For Farm Use.

Goodyear Klingtite Belting holds the pulleys in the slipless grip of its friction surface. It delivers full power all the time, and runs with a loose, free swinging action that favors the engine bearings.

It requires no belt dressing—needs no breaking in.

It is an all season, all-weather belt. It does not shrink, nor stiffen in cold weather, and it is subject to a minimum of stretch. So it eliminates engine re-setting.

And the Goodyear Klingtite Belt is unequalled for wear. It is specifically designed for farm power service. Its ply construction so distributes the load of the heaviest drive that ply separation is unknown among Goodyear Klingtite Belts.
