RE: TUTU Wells Site

Dear Andy:

Per your suggestion, I am writing to formalize my request to meet to discuss the schedule for completion of the RI/FS for the above-referenced site. I am forwarding to you a copy of the September 22, 1993 letter from Alberto Gutierrez, representing the TUTU Technical Group, to Melvin Hauptman. That letter responds to a number of the issues that you and Ms. Kwan raised regarding the Group's August 13, 1993 letter and reiterates our goal of attempting to work towards an integrated solution for the TUTU aquifer. The schedule and tasks proposed in the letter differ from those the TEIC is currently working under; therefore, we feel that a meeting would be appropriate to present the case made in the letter and to attempt to obtain your approval. Please contact me so that we can schedule a meeting at your earliest opportunity.

Sincerely,

Timothy R. Knutson
