ABSTRACT

Sixty-nine books and governmental reports published between 1843 and 1977 are listed in this bibliography on the U.S. Virgin Islands. It was compiled for persons seeking research information on black culture. Among the subjects included in the bibliography are Virgin Island folklore, archaeology, industrial development, and history. A 1917 census, the establishment of a civil government, and the employment of laborers of African extraction in the Virgin Islands are examples of topics covered in the citations listed on governmental reports. The bibliography is arranged in alphabetical order by author. (NE)
