Get Back Your Grip on Health

Every man and woman is born with just so much nerve force or nerve capital—some with more than others. Thousands inherit weak nerves because their nerve force has been squandered by their ancestors.

Your system can only make or create about so much nerve force every twenty-four hours, and if from any cause you use it up faster than it is made, you are bound in time to become a nervous bankrupt with all its terrible tortures and alarming symptoms.

In such cases, it is often worse than foolish to take stimulating medicines or narcotic

drugs. What you need is to take something to put more nerve force into your nerves and more iron into your blood. This is most effectively accomplished by the free use of Nuxated Iron. This valuable product contains the principal chemical constituent of active living nerve force in a form which most nearly resembles that in the brain and nerve cells of man. It also contains organic iron like the iron in your blood and like the iron in spinach, lentils and apples. This form of iron will not blacken nor injure the teeth nor upset the stomach. It is an entirely different thing from metallic iron which people usually take. Nuxated Iron may therefore be termed as both a blood and a nerve food as it feeds strength-giving iron to your blood and the principal chemical ingredient of active living nerve force to your brain and nerve cells. At all druggists.

Take Nuxated Iron
