

The Mistake

That millions have corrected

As most folks know, brushing teeth in old ways proved most disappointing. Teeth still discolored, still decayed. Beautiful teeth were seen less often than today. Tooth troubles came to 49 in 50.

Millions of people, nearly all the world over, have found a better method. The glistening teeth you see everywhere now show one of the results.

All due to film

Most cloudy teeth and most tooth troubles are now traced to film. Film is that viscous coat you feel. It clings to teeth, gets between the teeth and stays. Food stains, etc., discolor it, then it forms dingy coats. Tartar is based on film.

Film also holds food substance which ferments and forms acid. It holds the acid in contact with the

teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea. No ordinary tooth paste effective, combats film. So, despite all brushing, very few escaped those film-caused troubles.

Two new methods

Then dental science, after long research, found two film combatants. One acts to curdle film, one to remove it, and without any harmful scouring.

Able authorities proved those methods efficient. Then leading dentists everywhere began to advise their use.

A new-type tooth paste was created, based on modern research. The name is Pepsodent. Then these two film combatants were embodied in it for daily application.

One Tube Free

A 10-Day Tube.

Simply send coupon.

Other new ideas

Modern research also discovered two other essentials, and Pepsodent fulfills them.

It multiplies the alkalinity of the saliva. That is there to constantly neutralize the acids which cause decay. It multiplies the starch digester in saliva. That is there to digest deposits on teeth which may otherwise ferment and form acids.

Thus Pepsodent, twice daily, gives manifold power to Nature's great tooth-protecting agents in the mouth.

New beauty comes

Users of Pepsodent gain new beauty, new charm. You see that everywhere. Note how many pretty teeth show — teeth which were once concealed. No woman, no man, who once sees these results will ever go without them.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

This test will be a delightful revelation. It will point the way, for you and yours, to life-long benefits. Cut out the coupon so you won't forget.

Pepsodent MARK
TRADE

The New-Day Dentifrice

A scientific film combatant, which whitens, cleans and protects the teeth without the use of harmful grit. Now advised by leading dentists the world over. For sale in two sizes by all druggists.
