Ms. Inez Harvey
P.O. Box 893
St. Thomas, U.S. Virgin Islands 00804

Dear Ms. Harvey:

As per our telephone conversation today, I have enclosed another copy of the site access agreement for review by your attorney. Geraghty & Miller will be conducting a pumping test at a nearby well during the week of May 2 through May 7, 1994. Access to your well for water-level measurements, surveying, and possible sampling are essential components of our investigation.

You explained that you have had some legal problems with your lessee and prefer to do nothing until May 6, 1994, which will be one month since the lease reverted back to you. However, you should be advised that the supply well is the property owner's, regardless of tenancy agreements. As such, access to the supply well is at the discretion of the owner. Please consult your attorney to confirm this. You should also be aware that site access has been given by other property owners in the area for the purpose of the pumping test.

If you would show the access agreement to your attorney and sign all three copies of the agreement as soon as possible, we would be very grateful. Please return two copies to Geraghty & Miller, and retain one copy for your files. Again, please note that the testing will commence on May 2, 1994, and an immediate response is needed.

TUT 006 1122

If you or your attorney would like to discuss this matter, please call at the numbers listed below.

Sincerely,

GERAGHTY & MILLER, INC.
