One Reason Why The Tone OF

The Highest Class Talking Machine In The World CANNOT BE EQUALLED.

Cornets, Saxaphones, Flutes and other metal musical instruments are made of brass, when not of silver, because brass produces a superior tone quality. The Sonora Tone Arm is made of brass because of this recognized fact.

The tone arm of most other phonograph manufacturers are die castings from a composition of zinc, lead and tin-porous, brittle and unsuitable for good tone quality and durability.
