A New Charm Came to millions in this way

Millions of people have gained new charm through whiter, prettier teeth. You see them everywhere. The reason lies in a new cleaning method. Careful people of some fifty nations are using it today.

Test this method if you do not know it. People all about you have proved its importance. See what it means to you.

Combats the film

One purpose is to combat film on teeth—that viscous film you feel. It clings to teeth, enters crevices and stays. It absorbs stains, making the teeth look dingy. Then it forms cloudy coats. Tartar is based on film.

Film also holds food substance which ferments and forms acids. It holds the acids in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea.

No ordinary tooth paste effectively combats film. So, under

old methods, these troubles constantly increased, and beautiful teeth were seen less often than today.

Two ways found

To meet this situation, dental science searched for ways to fight film, and two ways were found. One acts to curdle film, one to remove it, and without any harmful scouring.

Able authorities proved these methods effective. Then a new-type tooth paste was created, based on modern research. The name is Pepsodent. These two great film combatants are embodied in it. Then dentists the world over began to advise its use.

Other factors

But Pepsodent brings other effects which old ways did not bring. It multiplies the alkalinity of the saliva. That is there to neutralize mouth acids, the cause of tooth decay.

Free

One 10-Day Tube
Send the Coupon

It multiplies the starch digestant in the saliva. That is there to digest starch deposits on teeth which may otherwise ferment and form acids.

Thus it gives manifold power to Nature's great tooth-protecting agents. And everywhere this means to people a new dental era.

Watch the man

Men who smoke find that tobacco particularly stains that film. Such men see conspicuous results. But most people's teeth, of every age, are clouded more or less.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

That test will give you new ideas of what clean teeth mean. You will want your family to always have them, we believe. Cut out the coupon now.
