LOCAL.

The schooner "Creole" with mail from

this island sailed for St. Thomas at 6 p. m. yesterday.

The show at St. Mary's Hall last night was a very beautiful one, and deserved a larger audience. The attendance was rather small. Tonight another fine film will be screened at the same place and promises an enjoyable evening. See programme in the present issue.

A popular concert by the Native Brass Band last night was much enjoyed by the usual gathering which tramped up town afterwards, the bandsmen repairing to the home of Bandmaster F. C. Jackson, Jr. where refreshments were served in celebration of the 13th. birthday of the organisation.

Correspondence

Christiansted, May 16, 1922

The Editor "St. Croix Avis,"

Dear Sir:—

In search of relief I stumbled on paragraph 58, chapter 12 of the Police Regulations for St. Croix reading as follows:

"At public performances or other amusement the audience must conduct themselves in a decent and orderly manner, and not interrupt the same nor mar the enjoyment of others by noise, shouts, continuous applause nor by any other means.

Anyone who visits the Christiansted Theatre or resides in the neighbourhood of that place would be excused for wondering if this regulation is a dead letter one. It is simply scandalous how the people behave at the theatre; the shouting, shrieking, howling, and other disgusting boisterous behaviour, to be heard all over the town, being enough to drive one wild, although the fallacy is that one goes to the theatre for rest of mind and nerve, for recreation. If the management does not feel the interest in its patrons to protect them from this abuse of their comfort and peace of mind, the police, which is well represented as a rule, is appealed to in the interest of

TAXPAYERS.

Editor of the St. Croix Avis.

Mr. Editor;—

Some short time ago in the local papers we read a notice from Government that the firm of Ramsay, Coogan and Co., Inc., was dissolved, and that said firm was "extinct". Yet now again in the same papers we read new advertisements signed by this company. If it concerns the public that they are "extinct" then may we ask how an extinct firm can advertise to the public?

Truly yours,

BUSINESS MEN.
