TERMS—50 cents monthly in advance
2 cents per single copy.

Entered as second-class matter May 26th 1917 at the Post Office at Christiansted, St. Croix, V. I. of the U. S. A., under the Act of March 3, 1879.

Contribution to this paper will be gladly received when the same deals with matters of general interest, and is accompanied with the author's name, as a guarantee of good faith. The editor cannot be responsible for the views of his correspondents nor does he necessarily endorse them.

Read this Important Paragraph from a letter from the Factory of the famous Tires

VIKING CORD

THE TIRE OF SUPERIOR QUALITY
AT A MODERATE PRICE.

"We pay our Workmen in Tires a very high wage. We keep the number of each Tire which each man makes. Then, if there are any just complaints, we refer to the number of the Tire, and the man who has made it have to pay the claim. The workmen agree to this, because they receive very much higher pay than is customary in other factories; and by having to pay the claim—in there is any—is undoubtedly the cause that they take special care in the construction of these tires; and to this is due the great record of the "Viking Tires".

Now it Will Go!

When 3-in-One Oil reaches the point of friction in a sewing machine bearing, friction dies immediately. Instead of groaning and hanging back, needle and shuttle take wings and fly like the wind. The thread runs free and easy and sewing becomes a joy.

3-in-One Oil

is the greatest oil in the world for sewing machines and all fine mechanisms—try it and see.

In 1-oz., 3-oz. and 8-oz. bottles; and
in 3-oz. Handy Oil Cans.

ASK YOUR DEALER

Keep Your Razor Sharp

It is impossible to wipe a razor absolutely dry. Consequently invisible rust is always eating away the microscopic teeth that give a razor its shaving power. This is why your razor becomes dull—rust does it! Nothing keeps a razor in such fine shaving trim as

3-in-One Oil

Use it this way and see for yourself: Before shaving, draw razor between thumb and first finger moistened with 3-in-One. Then strop with a few drops on the strop. Avoid making strop wet with oil. After shaving repeat this process. This checks rust and absolutely preserves the edge—microscopic rust cannot form—the cutting edge must stay keen.

In 1-oz., 3-oz. and 8-oz. bottles,
and in 3-oz. Handy Oil Cans.

ALL DEALERS.
