STAKEMANN.

Christiansted, St. Croix, V. I. U. S. A.,
this 31st day of March 1923.

A. E. STAKEMANN,
Administrator.

Watch the Man

See the changes one week brings

Millions of women know this
new way of teeth cleaning. And
the pretty teeth seen everywhere
show what it means to them.

If the man doesn't use it, get this
10 Day Tube for him. Then watch
the results. See what changes will
come in a week.

That dingy film

Most people who brush teeth in
old ways have film-coated teeth.
A viscous film clings to the teeth,
enters crevices and stays. That
film becomes discolored, particu-
larly with meat and smoke. Then
it forms dingy spots. Tartar is
based on film.

Film also holds food substance
which ferments and forms acid. It
holds the acid in contact with the
teeth to cause decay. Germs breed
by millions in it. They, with tartar,
are the chief cause of pyorrhea.

No old-type tooth paste can ef-
fectively fight film. So all these
troubles were constantly increas-
ing, and beautiful teeth were seen
less often than today.

New discoveries

Dental science, after long re-

search, has found two ways to
fight that film. One acts to curdle
it, one to remove it, and without
any harmful scouring.

Many careful tests proved these
methods efficient. Then authori-
ties endorsed them, and dentists
everywhere began to advise their
use.

A new-type tooth paste was cre-
ated, based on modern research.
The name is Pepsodent. Then
these two great film combatants
were embodied in it for daily ap-
plication.

Not film alone

But Pepsodent brings other great
benefits. Research proves es-
sential. It multiplies the alkalinity
of the saliva. That is there to con-
stantly neutralize the acids which
cause decay.

It multiplies the starch diges-
tant in the saliva. That is there to
digest starch deposits on teeth
which may otherwise ferment and
form acids.

Those are Nature's great tooth-
protecting forces in the mouth.
Every use of Pepsodent gives them
manifold power.

Some fifty nations
use it now

The use of Pepsodent has spread
the world over, largely by dental
advice. Careful people of some
fifty nations now employ it daily.
Thus it is bringing a new dental
era. The glistening teeth you see
everywhere now show how widely
it is used.

Send the coupon for a 10-Day
Tube. Note how clean the teeth
feel after using. Mark the absence
of the viscous film. See how teeth
whiten as the film-coats disappear.

In one week you will gain a new
idea of what clean teeth mean.
And all in your home will always
want those whiter, safer teeth. Cut
out the coupon now.

Pepsodent
TRADE MARK
The New-Day Dentifrice

A scientific film combatant, which whitens, cleans and
protects the teeth without the use of harmful grit. Now
advised by leading dentists the world over. For sale in
two sizes by all druggists.
