

TEXACO CARIBBEAN INC. U.S. VIRGIN ISLANDS

PRODUCTS YOU CAN TRUST

October 16, 1987

The Honorable Alan D. Smith
Commissioner of Planning and
Natural Resources
179 Altona & Welgunst
St. Thomas, VI 00802

Dear Sir:

Please find enclosed the Revised Action Plan for the Texaco Caribbean Inc. Service Station at Tutu in accordance with your First Amended Order of August 5, 1987 and subsequent conferences in which it was agreed that revisions to the original plan would be submitted by October 19, 1987. The Work Plan has been revised to incorporate a soil gas survey and other changes suggested by your office and EPA personnel. Copies of the Plans are being delivered to Mr. Charles Dolan of the United States Environmental Protection Agency, Region II.

We look forward to receiving approval so that we may start with the soil gas survey in accordance with the time table shown in the attached plan. If you have any questions, or if we may otherwise be of assistance, please advise.

Very truly yours,

William Hroch
