A Proclamation.

Whereas the Congress of the United States, by a concurrent resolution adopted on the fourth day of March last authorized the Secretary of War to cause to be brought to the United States the body of an American, who was a member of the American expeditionary forces in Europe, who lost his life during the world war and whose identity has not been established, for burial in the memorial amphitheater of the national cemetery at Arlington, Va.

And, whereas, the remains of this unknown American to be brought to the United States in pursuance of the said concurrent resolution, will be buried in the said memorial amphitheater at Arlington on the 11th day of November next.

And, whereas, these remains will be representative of all unidentified American dead who in the world war gave their lives in their country's cause;

And, whereas, it is desired that grateful recognition of their loyal devotion to country and of their sacrifice should be appropriately shown with due solemnity by their God-fearing and patriotic fellow countrymen;

Now, therefore, I, Warren G. Harding, President of the United States of America, do hereby call upon all devout and patriotic citizens of the United States to pause from their accustomed occupations and labors on Friday, the 11th day of November next, from 12 o'clock noon to 2 minutes past that hour for a period of silent prayer of thanks to the Giver of all good for these valuable and valorous lives and of supplication for His divine mercy and for His blessing upon our beloved country.

Furthermore, I hereby direct that the national flag be displayed at half staff upon all the public buildings of the United States and all stations of the army, navy and marine corps throughout the world, as well as upon all American embassies, legations and consulates, from sunrise until sunset, on November 11, 1921.

In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed. Now it Will Go!

When 3-in-One Oil reaches the point of friction in a sewing machine bearing, friction dies immediately. Instead of groaning and hanging back, needle and shuttle take wings and fly like the wind. The thread runs free and easy and sewing becomes a joy.

3-in-One Oil

is the greatest oil in the world for sewing machines and all fine mechanisms—try it and see.

In 1-oz., 3-oz. and 8-oz. bottles; and
in 3-oz. Handy Oil Cans.

Keep Your Razor Sharp

It is impossible to wipe a razor absolutely dry. Consequently invisible rust is always eating away the microscopic teeth that give a razor its shaving power. This is why your razor becomes dull—rust does it! Nothing keeps a razor in such fine shaving trim as

3-in-One Oil

Use it this way and see for yourself: Before shaving, draw razor between thumb and first finger moistened with 3-in-One. Then strop with a few drops on the strop. Avoid making strop wet with oil. After shaving repeat this process. This checks rust and absolutely preserves the edge—microscopic rust cannot form—the cutting edge must stay keen.

and in 3-oz. Handy Oil Cans.

WHAT A WOMAN SHOULD DO WHEN SHE IS WEAK AND NERVOUS

THOUSANDS OF WOMEN HAVE SURPRISINGLY INCREASED THEIR STRENGTH, ENERGY AND ENDURANCE IN TWO WEEKS TIME BY THIS SIMPLE EXPERIMENT.

On account of the terrible weakness, nervousness and alarming symptoms, which are often produced by iron starvation of the blood, the sufferer frequently never suspects the real cause of her trouble but thinks she has some other ailment. As a result of iron starvation you may suffer from headaches, dizziness, shortness of breath or heart palpitation, pains across the back, loss of memory, weak willpower, melancholy or the "blues," disturbed digestion, loss of appetite, sleepless nights, night sweats and so on. In such cases do not wait until you go all to pieces and collapse in a state of nervous prostration but eat more spinach and green vegetables and take organic iron like Nuxated Iron with them for a while and see what a difference it makes. But be sure the iron you take is organic iron and not metallic iron which people usually take. Metallic iron is iron just as it comes from the action of strong acids on small pieces of iron, while organic iron like Nuxated Iron is like the iron in your blood and like the iron in spinach, lentils and apples. Beware of substitutes. Look for the name "Nuxated" on every package and the letters N. I. on every tablet. Your money will be refunded by the manufacturers if you do not obtain perfectly satisfactory results. For sale by all druggists.
