Re: Sampling of Water Supply Wells During May/June 1994, Tutu Wells Site, St. Thomas,
U.S. Virgin Islands.

Dear Ms. Simmonds:

The Tutu Environmental Investigation Committee (TEIC) is currently implementing a Remedial Investigation (RI) that includes an evaluation of the groundwater quality in the Tutu area. This work is being conducted in accordance with a work plan approved by the U.S. Environmental Protection Agency (USEPA). The sampling activities are being coordinated with the U.S. Virgin Islands Department of Planning and Natural Resources (DPNR).

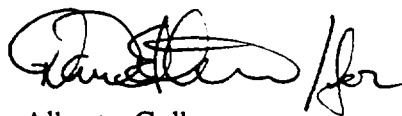

On behalf of the TEIC, Geraghty & Miller, Inc. is coordinating the sampling activities in the Tutu area. This letter serves to notify the Virgin Islands Housing Authority, as property owner, that Supply Well VIHA I and VIHA III is tentatively scheduled for sampling on May 26, 1994. Removal of non-functioning pumps and piping will likely be required prior to this sampling date. Access to your property will be in accordance with the signed Site Access Agreement dated September 1990, granting Geraghty & Miller access to conduct the sampling activities.

TUT 006 1063

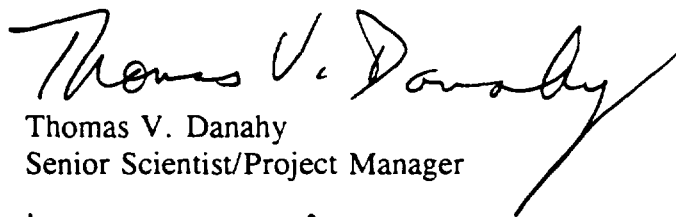

If you have any questions, please contact Alberto Colberg at our Puerto Rico office at (809) 725-2304. Thank you for your cooperation in this matter.

Sincerely,

GERAGHTY & MILLER, INC.
