Mayenca, April 6th.—Further despatches regarding the French occupation give details of the provisions for the maintenance of public order. Frankfurt, Darmstadt, Offenbach, Hochstadt, Konigstein and Deiburg, as well as the towns and districts within the circles of Langen-Schwalbach and Weisbades, with the exception of Biebrich, are declared to be under a state of siege. The German authorities and the public services will continue to execute their functions under French military officials, and strikes will not be tolerated. More than five persons must not collect in the streets, or in private or public meetings, without authorization. Newspapers have been temporarily suspended and permission must be given to resume their issue. Telephone, telegraph and postal censorship has been temporarily established, while wireless installations must be dismantled and the use of carrier pigeons is forbidden. All arms and grenades must be deposited in the city halls within six hours after the posting of the proclamation, but the regular police will be allowed to retain their sabres and revolvers. Any infraction of these rules will result in a court martial. The General commanding the army of the Rhine in his proclamation concludes by saying that he counts on the public powers and the population to understand the necessity of the above measures and hopes that repression will not be necessary.

London, April 5th.—The first aeroplane to rise from and alight again on the deck of a warship was one of those on board H. M. S. "Furious", while the

Why Women Grow Old More Quickly Than Men

Greater Percentage of Anaemia—Lack of Iron in the Blood—Among Women Makes Them Lose Much of Their Youth, Beauty and Former Attractiveness, And Become Fretful, Nervous and Run-down—

What Women Need Is Not Cosmetics or Stimulating Drugs But Plenty of Pure Red Blood Rich in Iron.

Physician Explains How Organic Iron—Nuxated Iron, Enriches The Blood, Strengthens The Nerves, Builds Up Physical Power and Often Makes Pale Careworn Women Look and Feel Years Younger.

Look for the woman who appears younger than the same age and you will find the exception to the majority upon whom anaemia—lack of iron in the blood—has fastened its grip and is gradually sapping the health and beauty which every woman so longs to retain. Cases men safeguard their health better than women, being more out-of-doors and leading active lives, thereby keeping their blood richer in iron and their bodies in better physical condition. The moment a woman allows herself to become weak, nervous and run-down she is placing a drain upon her whole system which overtaxes the power of the blood to renew wasted tissue and keep active the natural life forces of the body. There are thousands of women who are ageing and fading down at a time when they should be enjoying that perfect bodily health which comes from a plenty of iron in the blood, simply because they do not awake to their condition. For women of 30 or 40 a woman may look and feel as if she were a thirty, pale, haggard, run-down—while at the same time she is full with good health and beauty. The lack of iron in her blood may still be young in feeling and so full of life and attractiveness as to defy detection of her real age. But a woman cannot have beautiful rosy cheeks or an abundance of strength and endurance without iron, and physicians below have been asked to explain why they prescribe organic iron—Nuxated Iron—to help supply this deficiency and aid in building a race of stronger, healthier women.

Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Out-door Dept.), New York, and the Westchester County Hospital says: "As I have said a hundred times over, organic iron is one of the greatest of all strength builders. Many a woman who is run-down easily tired out, nervous and irritable, suffers from iron deficiency and does not know it. I am convinced that there are thousands of such women who, simply by taking Nuxated Iron might readily build up their constitutions, increase physical energy, and give themselves into a condition of health of the millions of women."

almost continually around us. Like doubtless hundreds of other fellow physicians, I have prescribed Nuxated Iron many, many times, and I have seen frequent instances where it gave renewed strength, and energy, increased power and endurance, steady nerves, and the rosy bloom of health in about ten days' or two weeks' time. I consider Nuxated Iron one of the foremost blood and body builders—the best to which I have ever had recourse.

Among other physicians asked for an opinion was Dr. George H. Baker, formerly Physician and Surgeon Monmouth Memorial Hospital, New Jersey, who says: "What wo-

man of iron in the blood—has a vitality. In most cases by eating more iron.

the springtime of life into their step is not cosmetics or stimulating drugs but plenty of rich, pure blood. Without it no woman can do credit to herself or to her work. Iron is one of the greatest of all strength and blood-builders, and I have found nothing in my experience so effective for helping to make strong, healthy, red-blooded women as Nuxated Iron. From a careful examination of the formula and my own tests of Nuxated Iron I feel

convinced that it is a preparation which any physician can take himself or prescribe for his patients with the utmost confidence of obtaining highly beneficial and satisfactory results."

Dr. Ferdinand King, a New York Physician and Medical Author says: "In my opinion there can be no healthy, rosy-cheeked women without iron. I have strongly emphasized the fact that doctors should prescribe more organic iron—Nuxated Iron—for their nervous, run-down, weak, haggard looking women patients. Anaemia—iron deficiency—is the greatest curse to the health, strength, vitality and beauty of the modern American woman. Lack of iron in the blood may often transform a beautiful, sweet-tempered woman into one who is cross, nervous and irritable—one who makes life a burden to herself, unbearable for her husband, and disagreeable for her children. When the iron goes from the blood of women, the roses go from their cheeks."

MANUFACTURERS' NOTE: Nuxated Iron which is prescribed and recommended above by physicians is not a secret remedy, but one which is well known to druggists. Unlike the older inorganic iron products it is easily assimilated, does not injure the teeth, make them black nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results or they will refund your money. It is dispensed in this city by all good druggists.

DISTRIBUTORS: APOTHECARY HALL, ST. THOMAS.
