Re: Sampling of Water Supply Wells During May/June 1994, Tutu Wells Site, St. Thomas, U.S. Virgin Islands.

Dear Mr. Turnbull:

The Tutu Environmental Investigation Committee (TEIC) is currently implementing a Remedial Investigation (RI) that includes an evaluation of the groundwater quality in the Tutu area. This work is being conducted in accordance with a work plan approved by the U.S. Environmental Protection Agency (USEPA). The sampling activities are being coordinated with the U.S. Virgin Islands Department of Planning and Natural Resources (DPNR).

On behalf of the TEIC, Geraghty & Miller, Inc. is coordinating the sampling activities in the Tutu area. This letter serves to notify Horace Turnbull, as property owner, that your supply well referred to as the "Delegarde" well in the U.S. Geological Survey (USGS), is tentatively scheduled for sampling on May 17, 1994. Access to your property for the purpose of sampling your well is requested by Geraghty & Miller on behalf of TEIC.
