

**TUTU WELL SITE, ST. THOMAS, U.S. VIRGIN ISLANDS
MONTHLY PROGRESS REPORT #37
FEBRUARY 1995**

WORK COMPLETED DURING PREVIOUS MONTH

- Met with EPA on February 1 at Region II to prepare for meetings with DNPR, WAPA, and DPW.
- On February 6 and 7, 1995 representatives of TEIC attended and participated in a meeting on St. Thomas with USEPA, CDM, DPNR, WAPA and DPW to discuss specific aspects of project implementation including:
 - a) treated groundwater discharges
 - b) treated groundwater re-use
 - c) short-term source control strategies
 - d) disposal of non-hazardous soils and solids at Bivoni Landfill
 - e) the permitting processes necessary as part of remedial implementation
- On February 24, 1995 TEIC received EPA's comments on the final draft RI Report.
- On February 27, 1995 TEIC received supplemental data collected by EPA contractors further addressing site conditions at the Laga Building. EPA requested that a discussion of this data be incorporated into the final RI.

WORK TO BE COMPLETED DURING NEXT MONTH

- Submit Draft Feasibility Study (FS) document to EPA and the PRP Group.
- Submit Final RI Report to EPA.
- Assist EPA as required in preparation for meetings to publicly discuss the FS.
