

Every Woman Needs IRON at Times

If women would only take Nuxated Iron when they feel weak, rundown, tired out—when they are pale, nervous and haggard—there are thousands who might readily build up their red corpuscles, become ruddy checked, strong and healthy and be much more attractive in every way. When the iron goes from the blood of women, the healthy glow of youth leaves their skin and their charm and vivacity depart. A two weeks course of Nuxated Iron works wonders in many cases. Satisfaction guaranteed or money refunded. At all good druggists.

Nuxated Iron

FOR SALE

- 1 Mahogany Bedstead with hair Mattress.
- 1 do. Washstand with marble top,

Combat that film on teeth

Watch the new beauty come

Go ask for this free test.

The results will delight you. They will show you a way which millions have found to whiter, cleaner, safer teeth. All in your home should know it. Show them at once what it does.

Why teeth grow dingy

You feel on your teeth a viscous film. It clings to teeth, enters crevices and stays. No ordinary tooth paste effectively combats it. That film is the teeth's great enemy. It absorbs stains, then forms a dingy coat. Tartar is based on film.

Film also holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. That's why 49 in 50 suffer from tooth troubles. Germs breed by millions in film. They, with tartar, are the chief cause of pyorrhea, now so alarmingly common.

Now you can combat it

Dental science has in late years found two film combatants. One acts to curdle film, one to remove it, and without any harmful scouring.

Able authorities proved these methods effective. Then a new-type tooth paste was created, based on modern research. These two film combatants were embodied in it for daily application. That tooth paste is called Pepsodent. Careful people the world over now use it, largely by dental advice.

A new dental era

Pepsodent also multiplies the alkalinity of the saliva. That is there to neutralize mouth acids, the cause of tooth decay.

The New-Day Dentifrice

A scientific tooth paste based on modern research, free from harmful grit. Now advised by leading dentists the world over. On sale everywhere in two sizes.

Protect the Enamel

Pepsodent disintegrates the film, then removes it with an agent far softer than enamel. Never use a film combatant which contains harsh grit.

It multiplies the starch digestant in the saliva. That is there to digest starch deposits which may otherwise ferment and form acids.

Thus it gives manifold power to these great natural tooth-protecting agents. These combined results mean a new dental era.

You will be amazed

This test of Pepsodent brings a new conception of what clean teeth mean. Present the coupon for it. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

In a week you will know what is best for you and yours—the old ways or the new. That decision is important. Cut out the coupon now.

Prettier teeth seen everywhere

You see prettier teeth now wherever you look, for millions are fighting film. So it is the world over. Careful people of some 50 nations now use Pepsodent every day. This test will show you why. No one can see the Pepsodent results without wanting them continued.

10-Day Tube Free

(Only one tube to a family)

Insert your name and address, then present this coupon this week to any store named below. You will be presented with a 10-Day Tube of Pepsodent.

If you live out of town, mail coupon to A. H. Rise, Dept. W4-6, St. Thomas, V. I., and tube will be sent by mail.
