

**TUTU WELL FIELDS PROJECT PROGRESS REPORT
OCTOBER 1994**

WORK COMPLETED DURING PREVIOUS MONTH

- Submitted Draft Remedial Investigation (RI) Report to USEPA and U.S. Virgin Islands Department of Planning & Natural Resources (DPNR) on October 13, 1994. After receiving confirmation from USEPA only limited distribution was made of Appendices K&L the validation documentation (including lab forms). This was sent to USEPA on October 13, 1994 under separate cover.
- Submitted Development and Screening of Remedial Alternatives Analysis Report (RAA) to USEPA and DPNR on October 14, 1994.
- Continued preparation of Draft Feasibility Study (FS) Report.

WORK TO BE COMPLETED DURING NEXT MONTH

- Attend meeting between Geraghty & Miller, TEIC, USEPA and the DPNR representatives from November 2, 1994 and November 3, 1994 in St. Thomas, U.S. Virgin Islands to present and discuss the Draft RI Report and the RAA with the USEPA and DPNR.
- Await formal comments on Draft RI Report from USEPA and DPNR.
- Await formal comments on RAA from USEPA and DPNR.
- Prepare Final RI Report addressing comments by USEPA and DPNR. The date of completion and submittal of the Final RI Report is contingent upon receipt of formal comments from USEPA and DPNR.
- Continue preparation of Draft FS Report.
