

St. Croix Avis

75TH YEAR.

CHRISTIANSTED, V. I. U. S. A., TUESDAY 26TH OCTOBER 1929.

No. 248

THE ST. CROIX AVIS

is printed and published daily (Sundays and Holidays excepted) by G. Johansen at the Avis Office.

TERMS—50 cents monthly in advance
2 cents per single copy.

Entered as second-class matter May 26th 1917 at the Post Office at Christiansted, St. Croix, V. I. of the U. S. A., under the Act of March 3, 1879.

Contribution to this paper will be gladly received when the same deals with matters of general interest, and is accompanied with the author's name, as a guarantee of good faith. The editor cannot be responsible for the views of his correspondents nor does he necessarily endorse them.

TELEGRAMS

ST. CROIX STATION.

St. John N. R., Oct. 19th.—Mr. Allisop, General Manager of the Royal Mail Steam Packet Co., arrived in the city yesterday and addressed a special meeting of the Board of Trade with respect to the increase of freight rates declared necessary in the company's service to the West Indies. It was decided to call a meeting this afternoon in the Board of Trade rooms of all West Indian shippers to consider the matter.

London, Oct. 19th.—The Central News Rome correspondent says tonight that the Giornale D'Italia publishes a report obtained by wireless from the Greek steamer Brindisi that King Alexander is dead. The last bulletin received by Reuters Limited from Athens timed 11 o'clock this morning said the King's condition was unchanged.

Paris, Oct. 19th.—A noted Surgeon, whose name has not been disclosed, left here for Athens tonight by special train, in answer to an urgent summons from the bedside of King Alexander. It is understood that he will attempt a further operation on the King.

London, Oct. 19th.—The government in the House of Commons today stated that the latest figures of the cost of living in Great Britain showed an increase of 164 per cent. The Food Controller announced that the area under wheat was 368,000 acres less than last year.

London, Oct. 20th.—Negotiations which might settle the strike of the miners were today believed to be assured. Government officials and labour leaders, who outlined their positions before the opening session of Parliament, have shown their desire to reach an understanding, and the belief was general today that proposals were in preparation by both sides of the controversy.

A Gift

A 10-Day Tube of Pepsodent is sent to all who ask. See coupon.

Women Who Smile

Should end that film on teeth

All statements approved by high dental authorities

Most teeth are clouded more or less by film. Millions of teeth are ruined by it. It causes most tooth troubles.

There is now a way to combat that film, advised by dentists everywhere. And a ten-day test will be sent on your request.

How film dims teeth

A viscous film clings to your teeth, enters crevices and stays. You can feel it with your tongue. Then it forms a cloudy coat and may lead to endless damage.

It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea.

Very few people, under old methods, have escaped these troubles. The ordinary tooth paste does not dissolve film, so the tooth brush failed to end it. Dental science has for years been seeking a way to combat it.

Five years ago the way was found, and dental authorities have amply proved its efficiency. Now it is urged for daily use, and millions already employ it. It is embodied

in a dentifrice called Pepsodent—a tooth paste made to meet modern requirements.

Teeth quickly show

There are three ways in which Pepsodent brings results unique and beneficial, but its action on film is the chief one.

Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to day by day combat it.

Pepsin must be activated, and the usual agent is an acid harmful to the teeth. So this method long seemed barred. But science has found a harmless activating method, and now active pepsin can be daily applied.

You see the results of Pepsodent wherever you look today—teeth whiter, cleaner, safer. Now see the results on your own teeth.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coat disappears.

Compare your teeth now with your teeth in ten days, then decide for yourself what is best for them. Cut out the coupon to avoid further delay. This test is most important.
