St. Joh's Church.

Nation-Wide Campaign.

THE Church by her very existence is committed to a forward programme. That programme involves and requires prayer, knowledge, and service. Service means man power and money.

The ordinary "money drive" asks you to part with as much money as you can be cause of the nature of the need.

The Nation-Wide Campaign is addressed to the people of the Episcopal Church. It asks them to change their attitude toward their money. It is not asking them to exhaust themselves in one enthusiastic spurt of giving, it is asking them to put their giving on a higher plane and to keep it there.

If it is a drive for any one thing, it is a drive for STEWARDSHIP! This is the "spiritualization of money".

"All things come of Thee! O Lord, and OF THINE OWN have we given Thee".
