TUESDAY

the 26th day of June 1923
AT 2 O'CLOCK IN THE AFTER-
NOON OF SAID DAY.

A. E. STAKEMANN,

Administrator of the Estate of Henry George, Deceased.

WHY YOU NEED IRON

To make you strong and "brainy" and put the power into your blood to overcome disease germs

The food you eat contains carbon. When your food is digested it is absorbed from the intestines into the blood. When the carbon in your food comes in contact with the oxygen carried by the iron in your blood, the carbon and oxygen unite and by so doing they give off tremendous energy, thereby giving you great force, strength and endurance. Without iron your blood carries no oxygen and without oxygen there is nothing to unite with the carbon in your food, so that what you eat does you no good—you do not get any strength from it—it is like putting coal into a stove without a fire. You cannot get any strength until the coal unites with the fire.

The strongest weapon with which to prevent and overcome colds, pneumonia, kidney trouble, rheumatism, nervous prostration, in fact almost any disease or disease germs is plenty of good rich, pure blood, strength, energy and endurance and the greater energy carried in the body is organic iron, not metallic iron which people usually take, but organic iron like the iron in spinach, lentils and apples, and like the iron contained in what is known as organic Nuxated Iron, which may be had from almost any druggist. Nuxated Iron often increases the strength, energy and endurance of weak, nervous, run-down folks in two weeks' time.

It has been used and highly recommended by former United States Senators, Members of Congress, Judges of U. S. Courts, many physicians and prominent men.

Over 8,000,000 people are now using it annually. Satisfactory results are guaranteed or the manufacturers will refund your money. Sold by all druggists in tablet form only.

Distributors: Apothecary Hall,
St. Thomas.

Beauty Without Grit

Without any harm to the teeth

Don't try to whiten teeth with grit that scratches the enamel. That's harmful. Use a soft polishing agent—the Pepsodent agent. Combat the dingy film twice daily in this new, effective way.

That's what millions of people the world over are doing, largely by dental advice. Look about you and see the beautiful teeth that result.

Clouded by film

Teeth are clouded by a film. It clings to teeth, gets between the teeth and stays. Stains enter it, on the film, if left, forms the basis of dingy coats. That's why teeth lose luster. Film is also the basis of tartar.

Most tooth troubles are now traced to that film. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Germes breed by millions in it.

They, with tartar, are the chief cause of pyorrhea.

Stays on teeth

Under old methods, much of that film remained on teeth. It made teeth cloudy. Night and day it threatened serious damage. That's why so many brushed teeth discolored and decay. Tooth troubles have been constantly increasing.

Now dental science, after long research, has found two film combatants. Able authorities have proved their efficiency. Now leading dentists almost the world over are urging their daily use.

A new-type tooth paste has been created, based on five modern requirements. The name is Pepsodent. These two great film combatants are embodied in it for daily application.

Old ways wrong

Pepsodent also aids Nature in two essential ways. It multiplies the starch digestant in the saliva.

That is there to digest starch deposits on teeth before they ferment and form acids.

It multiplies the alkalinity of the saliva. That is Nature's neutralizer for the acids that cause decay.

Every use of Pepsodent thus gives manifold power to Nature's great tooth-protecting agents. Old-time tooth pastes had the opposite effect. They reduced mouth alkalinity, reduced the starch digestant with every application. That was due to their soap and chalk.

We urge you to see and feel these effects, then judge how much they mean.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear. Watch these delightful effects for a few days and you will always want them. Cut out the coupon now.
