

Publication.

It is hereby brought to public notice that the Letters Patent which were recorded in the United States Patent Office, Washington, D. C., on March 18, 1919 in the name of Walter A. Patrick of Baltimore, Maryland, together with abstracts of title of said patent, which was subsequently assigned to the Silica Gel Corporation, a corporation organized and existing under the laws of the State of Maryland and patent certificate No. 1,297,721 issued therefor, has this date been registered in the Office of the Government Secretary of the Virgin Islands of the United States at St. Thomas, in accordance with the provisions in the regulations governing the registration of Patents and Trade marks in the Virgin Islands, approved 30 June, 1920.

Government of the Virgin Islands of the United States, St. Thomas, 13 April, 1923.

J. GAFFNEY,
Government Secretary.

1-X-7

"AN EIGHTH OF AN INCH!"

If you have ever cut into a worn automobile tyre you have seen that the foundation of tyre construction is cotton fabric.

So little a difference as an eighth of an inch in the length of the fabric of the cotton itself can make thousands of miles difference in the tyre's performance.

Some tyre makers think cotton of extremely long staple is too expensive to use, and are satisfied with a less costly grade.

But Goodyear puts into its tyres only the long-fibre kind.

This is only one of the many reasons why;

"GOODYEAR MEANS GOOD WEAR"

GOODYEAR
CORD TYRES
