Clinton, NJ 08809

Re: Endangerment Assessment for the Tutu Wells Site, St. Thomas, USVI

Dear Mr. McBurney and Mr. Seibel:

Enclosed please find two copies of the Endangerment Assessment for the Tutu Wells Site, ST. Thomas, USVI. Volumes 1 through 3 contain the Human Health Risk Assessment and Volume 4 contains the Ecological Assessment.

Pursuant to the executed Administrative Consent Order Index #: II-RCRA-Proceeding 7003 & 9003-92-0401, Section VII.C.1, within 30 days after EPA's submittal of the Baseline Risk Assessment report to the Respondents, the Respondents shall submit a draft Investigation Report to EPA for review and comment. In addition, within the same 30 days period, the Respondents shall conduct a detailed analysis of remedial alternatives. Therefore, the draft Investigation report and the detailed analysis of the remedial alternatives should be submitted to EPA for review and comment on or before September 30, 1994.

*8/31/94 In a telephone call @ 4:05 PM, Caroline confirmed
that the due date is October 13, not Sept 30th.*

Please call Ms. Kwan of my staff if you have any questions.

Sincerely yours,

Carole Petersen, Chief
New York/Caribbean Superfund Branch II
