WHAT A TONIC DOES FOR YOU

AND WHY YOU NEED IT, IN SO MANY
INSTANCES WHEN YOU ARE RUN DOWN,
NERVOUS OR HAVE HAD TO ENDURE
GREAT PAIN OR WORRY OF ANY KIND.

A tonic is something which puts tone, energy, strength and endurance into you. It gives a push to your heart, making it pump the blood over your body more vigorously; it makes your lungs expand more fully and thereby take up more strength-giving oxygen from the air you breathe; it makes your kidneys work better and carry off the poisons which would otherwise accumulate in the body; it makes your digestive apparatus perform its work better and give your blood the material it needs for feeding and sustaining your body; it makes your brain act more vigorously and enables you to think more accurately and for long periods without fatigue, thus bringing you greater success in whatever business, profession or undertaking you are engaged.

When you are rundown, nervous, half sick, unhearted and about ready to give up, experience of many years has shown that one of the best remedies to pull you out of this bad predicament is good old organic iron. But be sure the iron you take is organic iron, the kind that is found in plants, and not metallic iron which people usually take. Organic iron may be had from your druggist under the name of *Suzated Iron*. It often increases the strength, energy and endurance of weak, nervous, tired out folks in two-weeks time. Beware of substitutes. Always look for the word "Suzated" on every package and the letters R. A. C. on every box. Sold by all druggists.

Distributors: Apothecary Hall,
St. Thomas.

Goodyear Tires.

It is the Goodyear policy to serve the consumer.

To do this they are manufacturing three distinct types of tires, so that every car owner can secure the Goodyear quality tire best suited to his needs.

Goodyear Cords are the best tires that can be built. Their long wear and resistance to trouble more than compensate for their slightly added cost.

They have high air capacity, which, together with the cord construction, insures greater riding comfort and protects from excessive jars and jolts.

The carcass of Goodyear Fabric Tires is built up of stout plies of Goodyear cotton fabric, impregnated and covered with Goodyear Rubber.

They are made in all sizes with plain or All-Weather thread design.

It is the conviction of most tire users that Goodyear Fabric Tires will give you the lowest cost service of any fabric tire made.
