Watch the Man

See the changes one week brings

Millions of women know this new way of teeth cleaning. And the pretty teeth seen everywhere now show what it means to them.

If the man doesn't use it, get this 10-Day Tube for him. Then watch the results. See what changes will come in a week.

That dingy film

Most people who brush teeth in old ways have film-coated teeth. A viscous film clings to the teeth, enters crevices and stays. That film becomes discolored, particularly with men who smoke. Then it forms dingy coats. Tartar is based on film.

Film also holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea.

No old-type tooth paste can effectively fight film. So all these troubles were constantly increasing, and beautiful teeth were seen less often than today.

New discoveries

Dental science, after long re-

search, has found two ways to fight that film. One acts to curdle it, one to remove it, and without any harmful scouring.

Many careful tests proved these methods efficient. Then authorities endorsed them, and dentists everywhere began to advise their use.

A new-type tooth paste was created, based on modern research. The name is Pepsodent. Then these two great film combatants were embodied in it for daily application.

Not film alone

But Pepsodent brings other great results which research proves essential. It multiplies the alkalinity of the saliva. That is there to constantly neutralize the acids which cause decay.

It multiplies the starch digestant in the saliva. That is there to digest starch deposits on teeth which may otherwise ferment and form acids.

Those are Nature's great tooth-protecting forces in the mouth. Every use of Pepsodent gives them manifold power.

Some fifty nations
use it now

The use of Pepsodent has spread the world over, largely by dental advice. Careful people of some fifty nations now employ it daily. Thus it is bringing a new dental era. The glistening teeth you see everywhere now show how widely it is used.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

In one week you will gain a new idea of what clean teeth mean. And all in your home will always want those whiter, safer teeth. Cut out the coupon now.
