All members are urgently requested to attend.

Christiansted, St. Croix, December 9th. 1919.

For the Board,

WILH. JENSEN.
Secretary.

MAILS CLOSE

for New York, N. Y., by S. S. Guiana at 4 p. m. Thursday, 11th. instant.

Local.

Readers will note advertisements in this issue of shows at the theatre tomorrow and Thursday evenings, the

second night being the exhibition of the much talked of "Beast of Berlin" which the manager of the theatre tells us he saw in St. Thomas and can recommend as a great film that is sure to prove famous here.

At special request there is reprinted in this issue a letter from Revd. Levo published in the St. Thomas Mail Notes of 4th. instant relative to the aspersion made on the medical condition of these islands under the Danish administration. What Mr. Levo writes is only what any fairminded person acquainted with the situation must admit.

OFFICIAL NEWS.

December 8, 1919.

The U. S. S. Vixen sailed for San Juan this morning and will return on Thursday afternoon. A deserter from the U. S. Army who was a stowaway on a steamer which arrived at St. Thomas last week was transferred under guard to the Army authorities in Porto Rico.

Lieutenant Leo. S. F. Horan, U. S. Marine Corps, Legal Aid to the Governor will act as Judge of the District Court

of St. Thomas during the temporary absence of C. G. Thiele in Porto Rico.

Lieutenant Commander F. R. Colby, Supply Corps, U. S. Navy, Financial Adviser to the Governor is at present at St. Croix.

Little Johnny's Slate.

No-Man's-Land,

December seventh, nineteen nineteen.
Dear Mr. Yohansen:

It is some time since you have heard from me and I am only ritting this letter as I might not be able to rite you again if Uranus strikes the Sun and the Sun strikes the earth as an ex Danish astronomer and steeple xer prodix. Mr. Pettigrew forgot to mention this Genius as residing here. Daddy says that if the Sun strikes us it will be sure to hit the Steeple first as it is always in tough luck. Mr. Williams will be sorry to here that the steeple was struck by the Sun as this may give it sunstroke. Mother says that many people will be glad if Uranus comes near enough to us so they can make some new acquaintances. What are the people of Uranus called? are they called Uranians? please axe Mr. Jackson if you dont know. I think many people here would be glad to know the private business of some of the Uranians. I see the St. Gerad Socieity are giving a tea on the 15th; your "reporters" stand a swell chance of an invitation, I would be sorry if they did not go to see the show so they could tell us all about it. The name is not given is it "The Beast of Berlin" or what. I hear the Postmasters dog did not show up his best in an accidental scrap Yesterday with the Telephone Managers dog and today attempted suicide by taking sublimat water. It looks as thoug when koka kola fails to cure the blues the P. M. and T. M. may resort to a similar treatment.

Some people think I am the Telephone Manager but I never get the blues. I don't mind kidding the T. M. as he is now sore on me because Daddy wont pay the 22.4 for our fone as he says it is against the constitution of the United States.

I close now,
Your loving friend.

JONNIE IGNATZ.

To the Editor of ST. THOMAS MAIL NOTES.

Sir.—In reference to the strictures made upon the Medical Service in these Islands, it may interest your readers to know that on two occasions I myself, and on several occasions acquaintances of mine, have made special journeys from the English Islands to consult Danish doctors both here and in St. Croix.

It is a pity that charges as reckless as they are unfounded, should be made against men who, through years of strenuous and devoted work, have upheld the
