You Can't Escape

Tooth troubles if you leave a film

You should try this new method of teeth
cleaning. Try it ten days without cost. It
combats the film which dims the teeth and
causes most tooth troubles.

See and feel the results. To millions they
are bringing cleaner, safer, whiter teeth.

The tooth wrecker

Film is the great tooth wrecker. A viscous
film clings to the teeth, enters crevices and
stays. The ordinary tooth paste does not
end it. Old ways of brushing leave much of
it intact. And very few people have escaped
the troubles which it causes.

It is the film-coat that discolors, not the
teeth. Film is the basis of tartar. It holds
food substance which ferments and forms
acid. It holds the acid in contact with the
teeth to cause decay.

Millions of germs breed in it. They, with
tartar, are the chief cause of pyorrhea—a dis-
ease now alarmingly common.

A new dental era

Dental science has now found ways to com-
bat that film. The methods have been amply

The New-Day Dentifrice

A scientific film combatant, combined with two other
modern requisites. Now advised for daily use by
leading dentists everywhere. Supplied by druggists
in large tubes.

A Gift

A 10-Day Tube
of Pepsodent is
sent to all who
ask. See coupon.

proved by years of careful tests. Now mil-
lions employ them. Leading dentists every-
where advise them.

The methods are combined in a dentifrice
called Pepsodent. And, to let all know how
much it means, a ten-day tube is being sent
to all who ask.

Five desired effects

Pepsodent brings five desired effects. It combats
the teeth's great enemies as nothing has done be-
fore.

One ingredient is pepsin. Another multiplies the
starch digestant in the saliva, to digest starch de-
posits that cling. The saliva's alkalinity is multi-
plied also. That to neutralize the acids which cause
tooth decay.

Two factors directly attack the film. One of
them keeps teeth so highly polished that film can-
not easily adhere. Every application repeats these
results.

Send the coupon for the 10-Day Tube. Note how
clean the teeth feel after using. Mark the absence
of the viscous film. See how teeth whiten as the
film-coats disappear.

What you see and feel will be a revelation and
the book we send will explain how each effect is
natural and necessary. It is important that you
know this. Cut out the coupon now.
