35 Strand Street. For further
particulars apply on the property.

Christiansted, February 21, 1924.

Nice Teeth

Combat that film if you
seek that supreme charm

A few years ago, beautiful teeth
were seen less often than now.
Now millions show them. You
see them everywhere. People are
combating film.

Tooth troubles were almost uni-
versal. Now people combat the
cause in a scientific way.

Won't you now learn what
brought that change about?

Film—the enemy

Film is the great tooth enemy
—that viscous film you feel. It
clings to teeth, gets between the
teeth and stays.

It absorbs stains, then forms
dingy coats. Tartar is based on
film. That's why teeth lose their
luster.

Film holds food substance which
ferments and forms acids. It holds
the acids in contact with the teeth
to cause decay. Germs breed by
millions in it. They, with tartar,
are the chief cause of pyorrhea.

That's how tooth troubles come.

The new methods

Now we daily fight that film.
Dental science, after long research,
found two effective ways. One
acts to curdle film, one to remove
it, without any harmful scouring.

Able authorities proved those
methods. Then a new-type tooth
paste was created, based on mod-
ern research. Those two great
film combatants were embodied
in it.

MARK
Pepsodent
TRADE

The New-Day Dentifrice

A scientific tooth paste based on modern research, free
from harmful grit. Now advised by leading
dentists the world over. On sale
everywhere in two sizes.

Protect the Enamel

Pepsodent disintegrates the
film, then removes it with an
agent far softer than enamel.
Never use a film combatant
which contains harsh grit.

That tooth paste is called Pep-
sodent. Careful people of some 50
nations now employ it, largely by
dental advice.

Night and day

Pepsodent also multiplies the
alkalinity of the saliva, to neutral-
ize mouth acids as they form. It
multiplies the starch digestant in
the saliva, to digest starch deposits
which may otherwise ferment and
form acids.

Thus it gives manifold power to
these natural agents which night
and day fight acids—the cause of
tooth decay.

You'll welcome it

Pepsodent will delight you. Note
how clean the teeth feel after using.
Mark the absence of the viscous
film. See how teeth whiten as the
film-coats disappear.

Watch these effects. Cut out
this coupon and send it for a test.
It will be a revelation.

10-Day Tube Free 1106 Ex

THE PEPSODENT COMPANY,
Dept. W-6, 1104 South Wabash Ave.,
Chicago, Ill., U. S. A.

Only one tube to a family.
