A New Tyre with a New Tread.

The new Goodyear Cord Tyre with the bevelled All-Weather Tread is of the same high quality that has made more people ride on Goodyear Tyres than on any other kind. It is a decided improvement upon the already famous Goodyear Cord.

The powerful, clean-cut blocks are buttressed at the base by heavy circumferential ribs knitting the whole tread design into a firmer and stancher unit.

The blocks which line the tread on either side are bevelled at the outer edge, relieving the carcass from the strain of vibration.

Tests and the conditions of actual service have demonstrated that this new Goodyear Cord represents the greatest tyre achievement in many years.

This new and improved Goodyear Cord Tyre is now available at Goodyear Dealers and Service Stations, at the same price you are asked to pay for tyres of lesser merit.
