Paris, Dec. 10 h.—Large sums of money turned over to Germany by France for the purpose of ameliorating the material situation of miners in the Ruhr region, have been misappropriated by the Berlin Government, it was found at a meeting of the Committee of Foreign Affairs of the French Parliament yesterday, says the "Matin". Premier Leygues is said to have declared Germany was not fulfilling her engagements toward France, remarking that the French budget of 1921 provides for advances to the account of Germany amounting to sixteen billion francs. The French Premier has explained the situation to Mr. Lloyd George, who has admitted the justice of his conclusions, it is said. M. Leygues informed the commission that another Franco-British conference would be held in two or three weeks. Reports received late in November stated that most of the 200,000,000 francs in gold paid each month to Germany by France under the Spa coal agreement since last July, had been diverted to the purposes of propaganda and for payments of British creditors of Germany.

New York, Dec. 10th.—One of the first acts of the new administration will be to make peace with Germany and repeal the wartime powers of the President, Senator Lenroot of Wisconsin declared here today in an address before the annual convention of the International garment manufacturers.

Washington, Dec. 10th.—An amendment to the Johnson immigration bill, limiting the embargo to one year, instead of two, was adopted today by the House, 87 to 25. It was offered by Representative Mann, Republican, of Illinois.
