

Informal Learning

Jarvon Stout,
STT/STJ Engagement Specialist

Kai Nielsen,
STX Engagement Specialist

Research Goals & Objectives

Goal 1	Expanding our reach
Goal 2	Diversifying science themes
Goal 3	Workforce development
Goal 4	Becoming a resource
Goal 5	Understanding our audience
Goal 6	Becoming self sufficient

Results, Outcomes & Accomplishments

- 4,000 Virgin Islanders reached
- 2,000 k-12 students engaged

- Creating community spaces
- Better outreach tools

Broader Impacts, Sustainability

<u>IMPACT ONE</u>	<u>IMPACT TWO</u>
STEM exposure and professional development -405 k-12 students in STEM interventions	Funding and sustainability -\$200,000

Collaborations

A photograph of a young tree sapling with green leaves and a white support stake, planted in a field of dry grass and soil. The sapling is the central focus, with its trunk supported by a white stake. The ground around it is a mix of dark soil and dry, brown grass. In the background, there is a sloping hillside covered in green grass and some trees under a clear sky.

Thank you!
