RE: Texaco Tutu Service Station - Phase I Remedial Investigation Report
St. Thomas, U.S.V.I.

Dear Mr. Crooke:

Enclosed please find a copy of the Phase I Remedial Investigation Report for the subject site. The report describes the results of the investigation, which was initiated during December 1993, and presents a conceptual remedial design that incorporates an EPA presumptive remedy for soils remediation. Texaco would like to begin implementation of the described remedial action during the latter part of 1994.

If you should have any questions, please contact me at (914) 838-7297.

Sincerely,

Paul F. Ryan
