"Starlight" lights burnin' bright
"Lincolmites" tried to put up a hard fight

"Starlight being too strong,
"Lincolmites" thought, something was going wrong.

Sunday afternoon on the Holger Danske Ground before a large number of football lovers who were delighted with the game played, the "Lincolmites" were defeated by the "Starlight". The score being S. 3 goals, L. 1.

"Tadousac", Capt. of the "Lincolmites" by a narrow chance scored the one goal being a destroyer by a swift toss from the left wing to the right direct from "Cody" the fast left wing player, who played Centre Half Back.

The "Starlight" scorers were: "Carlin", who played Centre Half Back in the first half, "Grebe" the powerful right wing forward, and "Jimmy" the scientific left wing forward who played Centre Forward.

"Thully" along with his other colleagues who tried to score were bombarded by the strong force of the "Starlight".

"Stragler", the Gazette jumper in his sly style, made many attempts at his opponent's goal, but failed to score.

After the game congratulations were extended to the "Starlight" Boys captained by "Brunnie" for the excellent playing performed by them.

May the "Lincolmites" Boys be contented with their defeat, and wish them better luck next time. —Com.

Paris, Sept. 12h.—The danger to the peace of Europe from the Italian occupation of Corfu ended tonight when, after another difficult session, the Ambassadors Council came to a full agreement. Italy finally consented to evacuate Corfu before the end of September. It is understood they are to leave the island by September 27th. It is also understood the council agreed that if on the date of evacuation the inter-Allied commission of enquiry reports Greece has not done all possible to discover and punish the assassins of the Italian members of the Greco-Albanian Boundary Commission, the 50,000,000 lire deposited by the Greek Government shall be paid over to the Italian Government as reparations. Up to almost the last moment the Italians insisted that the powers ought to take Premier Mussolini's word as to the evacuation and leave it to him to fix the exact date after the reparation measures have been carried out. The British Ambassador insisted, quite strongly, that public opinion throughout the world ought to be assured by a definite arrangement that would put an end to the talk that Italy intended to remain in Corfu indefinitely. He asked that the Italian Premier choose a fixed date which would be early enough to set all speculation as to Italy's intention at rest. The Allies assured the Italian Ambassador that the greatest dili-

gence would be exercised in pursuing the inquiry into the assassination of General Tellini and the other members of the Italian boundary commission, and pleaded with him to urge Rome to accept the desire of Great Britain and fix a precise date for the evacuation of Greek territory, so as to relieve the world of anxiety. The afternoon session was postponed until six o'clock and then again at 6.30 o'clock in order to give time for the Ambassadors to communicate with their Governments. Two more hours were occupied by the Ambassadors at the evening session before they could come to an agreement, but eventually it was announced, with an air of great relief, that Italy has agreed to evacuate. An official communique issued soon afterwards said: "The Ambassadors Council has adopted a solution which it considers such as will put an end to the situation created by the assassination of the Italian delegation. The solution will be immediately transmitted to the League Council and will be made public tomorrow at noon". The members of the commission of inquiry will leave tomorrow to take up their work with instructions to pursue their investigations with the greatest energy.

Buenos Aires, Sept. 13h.—The Minister of Finance has received a cable from Dr. Jose Evaristo Uriburu, Argentine Ambassador to Great Britain, relative to the loan of 40,000,000 pounds offered the Argentine bankers for carrying out a programme of public works in this country. The message disclosed that the British Government will guarantee that the loan is raised in London provided the proceeds are used exclusively for the purchase of materials in England. It is also stipulated that if the proposed loan is to be used for the contraction of railways such lines must not affect zones already served by British concerns in the Argentine.

Berlin, Sept. 13th.—Gold foreign currencies and commercial bills will serve at first to cover the new currency, which, as a result of yesterday's cabinet decision will be issued on a gold basis from a new bank of issue, according to the Vossische Zeitung. The Government, the newspapers say, believes it will be able to furnish sufficient guarantees to keep the new bank from becoming a tool of the private interests but no decision has yet been taken regarding the amount of capital, or the organization of the institution. The paper marks will not for the present be withdrawn from circulation, so that, as in the case of Russia, two currencies will be legal tender.

St. Johns, N. F. Sept. 14th.—A proposition of no little importance to the people of Newfoundland is that at present under consideration by the Government for the establishment of a direct line of steamship between Newfoundland and the West Indies. The draft agreement provides that the Govern-
