Delco - Light

YOUR country home may be splendidly situated. The breeze playing around it may be most restful and refreshing, but if you haven't electric light and power, you are not enjoying its comforts to the fullest extent.

You may be two, six or ten miles away from town, but with DELCO-LIGHT installed, you can have every convenience of a city.

Think what an advantage it would be to have electric lights throughout your house and grounds. Think of a hot cup of coffee and toast for breakfast without the use of the kitchen stove, or a well-cooked chafing dish meal after a busy day in the field.

DELCO-LIGHT

is a complete electric plant, easy to install and easy to care for. It will furnish the home with an abundance of electric light and power at low cost.

The experiences of more than 135,000 enthusiastic users in all parts of the world prove that DELCO-LIGHT soon pays for itself by the work it does.

Let our electrician, Mr. Geo. W. Powell, Manager of The Electric Power Plant at Christiansted, call upon you and give you all the information which you may need.

Now it Will Go!

When 3-in-One Oil reaches the point of friction in a sewing machine bearing, friction dies immediately. Instead of groaning and hanging back, needle and shuttle take wings and fly like the wind. The thread runs free and easy and sewing becomes a joy.

3-in-One Oil

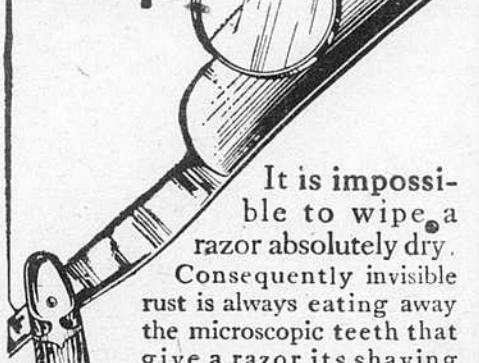

is the greatest oil in the world for sewing machines and all fine mechanisms—try it and see.

In 1-oz., 3-oz. and 8-oz. bottles; and in 3-oz. Handy Oil Cans.

ASK YOUR DEALER

Keep Your Razor Sharp

It is impossible to wipe a razor absolutely dry. Consequently invisible rust is always eating away the microscopic teeth that give a razor its shaving power. This is why your razor becomes dull—rust does it! Nothing keeps a razor in such fine shaving trim as

3-in-One Oil

Use it this way and see for yourself: Before shaving, draw razor between thumb and first finger moistened with 3-in-One. Then strop with a few drops on the strop. Avoid making strop wet with oil. After shaving repeat this process. This checks rust and absolutely preserves the edge—microscopic rust cannot form—the cutting edge must stay keen.

In 1-oz., 3-oz. and 8-oz. bottles and in 3-oz. Handy Oil Cans.
