London, Dec. 13th.—Messrs. Lloyd George and Clemenceau, tonight, completed a three days' conference on the main outstanding international questions relating to the peace settlement, principally Turkey. During the course of the discussions, the American, Japanese and Italian Ambassadors and British and French financial experts, were called in at various times, while the Italian Foreign Minister, Signor Scialoja, took a prominent part. The conference covered a wide range of subjects and an official statement issued tonight records that satisfactory agreements were arrived at on all outstanding questions. As far as is known, the American Ambassador, Mr. Davis, participated in the Adriatic question. He emphatically denied the report tonight that the Conference had submitted a proposal to President Wilson for the re-vamping of the Treaty and that he had been called in to discuss them. What was wanted of him or what advice he may have given, is carefully concealed. The London political writers are at wide variance regarding the proceedings of the Conference, none of them apparently being informed as to what transpired.

London, Dec. 13 h.—The report of the Committee on post war currency and foreign exchange, has issued a white paper recommending certain methods for the economic restoration of the nation. "Increased production, cessation of Government borrowing and decreased expenditure, both by individuals and the nations, are the first essentials of recovery", the report says. The restoration of pre-war methods of currency and control of the credit system is urged in order to

## Why Women Grow Old More Quickly Than Men

**Greater Percentage of Anaemia—Lack of Iron in the Blood—Among Women Makes Them Lose Much of Their Youth, Beauty and Former Attractiveness, And Become Fretful, Nervous and Run-down—**

**What Women Need Is Not Cosmetics or Stimulating Drugs But Plenty of Pure Red Blood Rich In Iron.**

Physician Explains How Organic Iron—Nuxated Iron, Enriches The Blood, Strengthens Nerves, Builds Up Physical Power and Often Makes Weak, Pale Careworn Women Look and Feel Years Younger.

Look for the woman who appears younger than a man of the same age and you will find the exception to that vast majority upon whom anaemia—lack of iron in the blood—has fastened its grip and is gradually sapping the health, vitality and beauty which every woman so longs to retain. In most cases men safeguard their health better than women by eating coarser foods, being more out-of-doors and leading more active lives, thereby keeping their blood richer in iron and their bodies in better physical condition. The very moment a woman allows herself to become weak, nervous and run-down she is placing a drag upon her whole system which overtakes the power of the blood to renew wasted tissue and keep active the natural life forces of the body. There are thousands of women who are aging and breaking down at a time when they should be enjoying that perfect bodily health which comes from plenty of iron in the blood, simply because they are not awake to their condition. For want of iron a woman may look and feel old at thirty, pale, haggard and all run-down—while at 50 or 60 with good health and plenty of iron in her blood she may still be young in feeling and so full of life and attractiveness as to defy detection of her real age. But a woman cannot have beautiful rosy cheeks or an abundance of strength and endurance without iron, and physicians below have been asked to explain why they prescribe organic iron—Nuxated Iron—to help supply this deficiency and aid in building a race of stronger, healthier women.

Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital says: "As I have said a hundred times over, organic iron is one of the greatest of all strength builders. Many a woman who is run-down easily tired out, nervous and irritable, suffers from iron deficiency and does not know it. I am convinced that there are thousands of such women who, simply by taking Nuxated Iron might readily build up their red corpuscles, increase physical energy, and get themselves into a condition to ward off the millions of disease germs that are

almost continually around us. Like doubtless hundreds of other fellow physicians, I have prescribed Nuxated Iron many, many times, and I have seen frequent instances where it gave renewed strength, and energy, increased power and endurance, steady nerves, and the rosy bloom of health in about ten days' or two weeks' time. I consider Nuxated Iron one of the foremost blood and body builders—the best to which I have ever had recourse."

Among other physicians asked for an opinion was Dr. George H. Baker, formerly Physician and Surgeon Monmouth Memorial Hospital, New Jersey, who says: "What women need to put roses in their cheeks and

the springtime of life into their step is not cosmetics or stimulating drugs but plenty of rich, pure blood. Without it no woman can do credit to herself or to her work. Iron is one of the greatest of all strength and blood-builders, and I have found nothing in my experience so effective for helping to make strong, healthy, red-blooded women as Nuxated Iron. From a careful examination of the formula and my own tests of Nuxated Iron I feel

convinced that it is a preparation which any physician can take himself or prescribe for his patients with the utmost confidence of obtaining highly beneficial and satisfactory results."

Dr. Ferdinand King, a New York Physician and Medical Author says: "In my opinion there can be no healthy, rosy-cheeked women without iron. I have strongly emphasized the fact that doctors should prescribe more organic iron—Nuxated Iron—for their nervous, run-down, weak, haggard looking women patients. Anaemia—iron deficiency—is the greatest curse to the health, strength, vitality and beauty of the modern American woman. Lack of iron in the blood may often transform a beautiful, sweet-tempered woman into one who is cross, nervous and irritable—one who makes life a burden to herself, unbearable for her husband, and disagreeable for her children. When the iron goes from the blood of women, the roses go from their cheeks."

MANUFACTURERS' NOTE: Nuxated Iron which is prescribed and recommended above by physicians is not a secret remedy, but one which is well known to druggists. Unlike the older inorganic iron products it is easily assimilated, does not injure the teeth, make them black nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results or they will refund your money. It is dispensed in this city by all good druggists.

DISTRIBUTORS: APOTHECARY HALL, ST. THOMAS.
