Re: Tutu Wells Site, St. Thomas, U.S. Virgin Islands

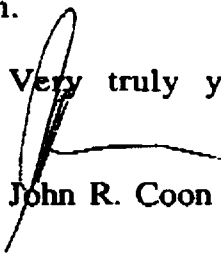

Dear Mr. Praschak:

Receipt is hereby acknowledged of the undated correspondence from George Pavlou, Acting Director of the EPA, to Daniel Wilson, President of Western Auto. As you are aware, the undersigned represents Western Auto in the EPA administrative proceedings involving the superfund site referenced above.

As per the instructions in the correspondence described above, and without waiving any rights that Western Auto has to object to its being suspected of being an operator of a facility at which there has been a release or threatened release of a hazardous substance, and without waiving any rights it may have to dispute the EPA's determination that Western Auto be made a potentially responsible party, Western Auto agrees to consider cooperating with future activities involving this site. The undersigned will represent Western Auto at the July 8, 1993, meeting.

Thank you for your attention.

Very truly yours,

John R. Coon
