Episode No. 3: "THE CRYSTAL Gazer".

Episode No. 4: "THE SECOND KEY".

Jack Stone, in love with "Mystery" (Ruth Clifford), has planned an elopement, which, according to arrangement, is carried out at ten o'clock a certain night. On this same night Mystery is kidnapped for the sake of the key suspended from her neck; the key falls, unknown to her kidnappers, at the parson's door as they carry her away. She is then taken to a secret underground chamber, where a method of torture is applied in an attempt to force her to give up the key.

Physician Explains Who Should Take Nuxated Iron

Practical Advice on How To Help Build Up
Great Strength, Energy and Endurance

"Lack of iron in the blood not only makes a man a physical and mental weakling, nervous, irritable, easily fatigued, but it utterly robs him of that virile force, that stamina and strength of will which are so necessary to success and power in every walk of life," says Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital. "It may also transform a beautiful, sweet-tempered woman into one who is cross, nervous and irritable. I have strongly emphasized the great necessity of physicians making blood examinations of their weak, anaemic, run-down patients. Thousands of persons go on year after year suffering from physical weakness and a highly nervous condition due to lack of sufficient iron in their red blood corpuscles without ever realizing the real cause of their trouble. Without iron in your blood your food merely passes through the body something like corn through an old mill with rollers so wide apart that the mill can't grind.

"For want of iron you may be an old man at thirty, dull of intellect, poor in memory, nervous, irritable, and all 'run down,' while at 50 or 60 with plenty of iron in your blood

you may still be young in feeling, full of life, your whole being brimming over with vim and energy.

But be sure the iron you take is organic iron—Nuxated Iron—and not metallic iron which people usually take. Organic iron—Nuxated Iron—is like the iron in your blood and like the iron in spinach, lentils and apples, while metallic iron is iron just as it comes from the action of strong acids on small pieces of iron filings and is therefore an entirely different thing from Nuxated Iron. Nuxated Iron represents organic iron in such a highly concentrated form that one dose is estimated to be approximately equivalent (in organic iron content) to eating one-half quart of spinach, one quart of green vegetables or half a dozen baked apples. It is like taking extracts of beef instead of eating pounds of meat.

Over 4,000,000 people annually are using Nuxated Iron. It quickly helps make rich red blood, revitalize worn-out exhausted nerves and give increased strength and energy. Your money will be refunded by the manufacturers if it does not produce satisfactory results.
