THE HOUSES THAT CARE FORGETS.

Care and her sister Worry sat out to become acquainted with everybody. Unpopular and troublesome though they were, they managed to visit almost everyone.

Scattered over the land are thousands of little homes in each of which, within four wooden walls, is a spirit which drives care and worry away. This beneficent spirit is that of music—music, sweet, pure wonderfully beautiful, restful to the tired, a solace to the sorrowful, an inspiration to the dispirited.

Music at its best—a reproduction of the master efforts of the greatest of artists, matchless in accuracy and in expression and in charm, is to be found in its home in the famous Sonora, The Highest Class Talking Machine in the World.

Sonora is the phonograph which plays all make of disc records perfectly without extra attachments and which enables you to enjoy the records not only of American manufacturers but of important foreign record makers as well.
