FORD PRODUCING 4,000 CARS A DAY

Present Production Greater Than for Same Period Last Year.

Ford is building cars at full speed. And, according to an official statement from the factory at Detroit, the demand for Ford cars and trucks still exceeds the output, despite the fact that a new high level of production has been reached.

By the first of May the figures representing daily production were in the neighbourhood of 4,000 a day so the May schedule was set at 101,125 cars and trucks, not including the output of the Ford Canadian plant or any of the foreign assembling plants. The output mounted daily; May 12th brought forth 4,092, the greatest number that have been produced in one day so far this year. Since the month has 25 working days, present indications point to a new high record.

A comparison of Ford production figures for 1920 and 1921 discloses the fact that for April, 1921 the output was greater by 34,514 than for the corresponding month of a year ago. The output for May 1921 will probably overshadow May 1920 by between fifteen and twenty thousand cars and trucks.

Approximately 43,000 men are at work in the Detroit plant of the Ford Motor Company. The factory is operating on full time, six days a week and three shifts a day.

"We were never in a better condition than we are right now," said Henry Ford recently.

Correspondence

A MAS ER-WORKMAN.

On Wednesday we had the pleasure of seeing an excellent pair of mahogany rocking chairs. At first glance we decided that none other than a master hand was at work on those chairs. The symmetrical appearance of the chairs strengthened our opinion. On inquiry we learned that the person responsible for this artistic work is Mr. F. C. Jackson, Sr. one of our old and respected citizens, master-joiner, and former Policeman in the Danish Administration, who saw 38 years of faithful service in the Christiansted Police Force. On further inquiry we learned that Mr. W. Pentheny has also purchased a pair of these fine chairs, and is highly pleased with them. We are glad to see that Mr. Jackson is now reminding us of the real old time stuff of former years—Good.—Com.

WHAT A WOMAN SHOULD DO WHEN SHE IS WEAK AND NERVOUS

THOUSANDS OF WOMEN HAVE SURPRISINGLY INCREASED THEIR STRENGTH, ENERGY AND ENDURANCE IN TWO WEEKS TIME BY THIS SIMPLE EXPERIMENT.

On account of the terrible weakness, nervousness and alarming symptoms, which are often produced by iron starvation of the blood, the sufferer frequently never suspects the real cause of her trouble but thinks she has some other ailment. As a result of iron starvation you may suffer from headaches, dizziness, shortness of breath or heart palpitation, pains across the back, loss of memory, weak willpower, melancholy or the "blues," disturbed digestion, loss of appetite, sleepless nights, night sweats and so on. In such cases do not wait until you go all to pieces and collapse in a state of nervous prostration but eat more spinach and green vegetables and take organic iron like Nuxated Iron with them for a while and see what a difference it makes. But be sure the iron you take is organic iron and not metallic iron which people usually take. Metallic iron is iron just as it comes from the action of strong acids on small pieces of iron, while organic iron like Nuxated Iron is like the iron in your blood and like the iron in spinach, lentils and apples. Beware of substitutes. Look for the name "Nuxated" on every package and the letters N. I. on every tablet. Your money will be refunded by the manufacturers if you do not obtain perfectly satisfactory results. For sale by all druggists.
